

FUSION

Special Wi-Fi installation with Android APP.

To get started please copy and paste the link below in your android browser:

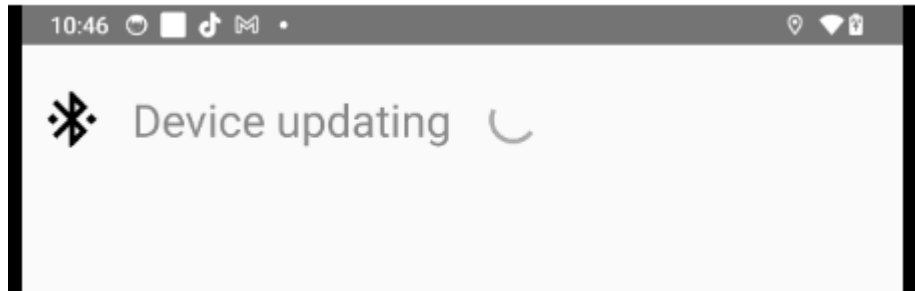

<https://fusionptt.com/fusionwifi.apk>

Once installed you will see the PTT WiFi App Below:

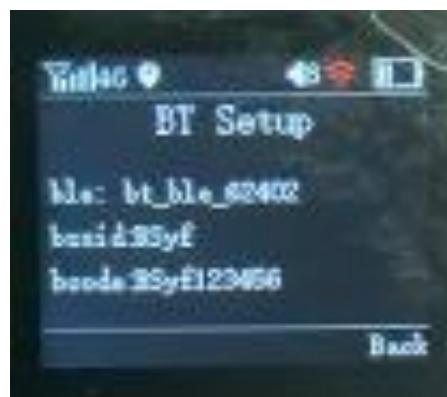

FUSION

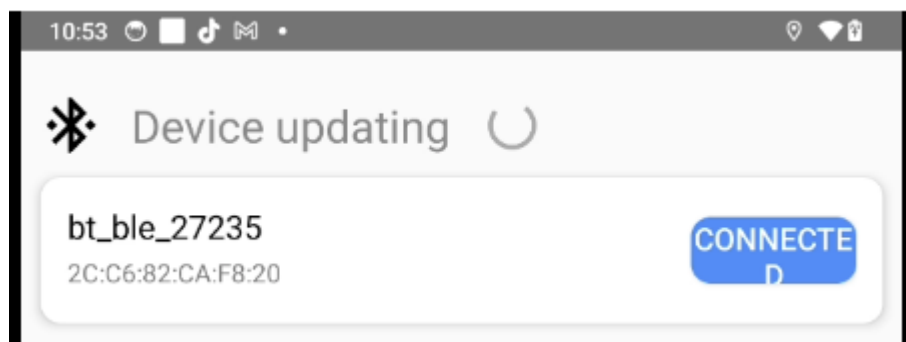

After starting the application, you will see the screen below:

Now go to your phone's Wi-Fi settings and choose **[3] BT Setup**:

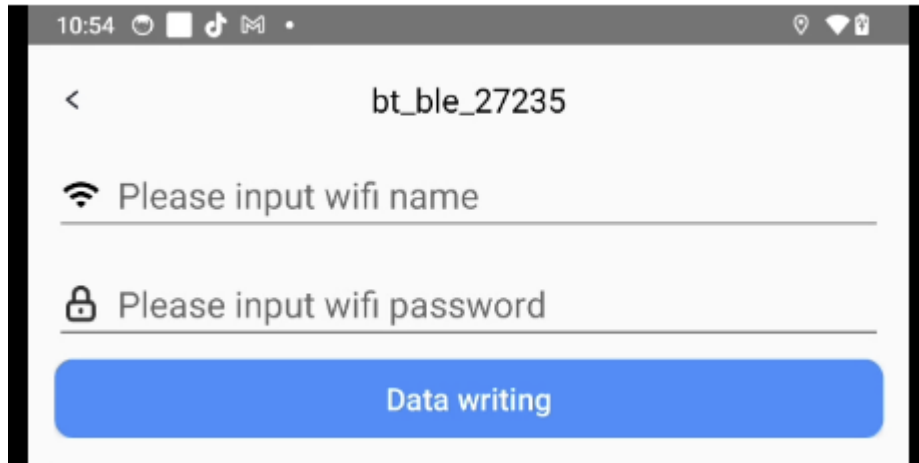

Then return to the Android App screen select the **radio that requires programming**:

FUSION

When prompted enter your Wi-Fi name and Wi-Fi Password and click on the data writing button to send the Wi-Fi information on the phone:

You are done – Your phone will now reboot.

Once the phone restarts, make sure your Wi-Fi switch is on to use Wi-Fi networks.
